It also provides an SCA wide standard of comparison for combat archery skills.

The IKCAC, unlike the IKAC, consists of only one division. The starting date is 1 February and the ending date is December 1. As in the IKAC, each Kingdom's score is made up of the average of the top 3 scorers, and medallions are awarded to the top 3 archers of the winning Kingdom. As with the IKAC, all participants' scores are shown on the Scores page, allowing each archer to track their progress and compare themselves with other archers in the Knowne World.

There are very specific rules for the IKCAC, please make sure to read the rules on the IKCAC rules page. On that page you can also see a drawing and picture for the IKCAC typical target.

- **Princess Bride Tournament**

10:00 am - 12:00 pm

"My name is Inigo Montoya, you killed my father, prepare to die!"

The Princess Bride tournament is an Easter favourite. The first challenge is to challenge each other to various challenges, inspired by the movie, The Princess Bride. The second is to try to win the tournament. You can either win with prowess or win with silliness. That is, there are two winners: the one who wins using conventional means of killing their opponent the most times, the other is to kill your opponent through excessive use of quotes from the Princess Bride movie.

Life isn't fair, it's just fairer than death, that's all.
